The 3rd Annual TechTest Jr. Math and Science Competition

Nevada City, California, 05-04-14 — The 3rd Annual TechTest Jr. Math and Science Competition will be held on 31 May, 2014 at Nevada Union High School. This competition is sponsored by the Sierra Economics and Science Foundation.

This math and science competition is for 8th grade students in all Nevada County Schools. There are no fees for entering and prizes will be awarded to top scoring students, and top finishing schools will be recognized for their student's achievements.

For more information on this competition and to reserve a spot, please contact David Pistone, SESF Director of Education Initiatives, at david.r.pistone@gmail.com or go to the SESF Website sesfoundation.org The web site will be used to inform all students and parents of any changes or enhancements to the competition, including the starting and completion times.

SESF is seeking more sponsors for this annual Math and Science Competition. All sponsors will have their logos on the T-shirts handed out to all competitors. TechTest Jr. is where the elite compete and companies have an opportunity to show their support of science, technology, engineering and math (STEM) education in Nevada County.

TechTest and Tech Test Jr. goals are to promote vitally needed STEM careers in all Nevada County schools, and welcome support from all companies in the community.

SESF is a non-profit 501 (c) (3) Corporation that has sponsored TechTest merit scholarship competition for high school seniors seeking STEM careers for the last eight years. All awards are based on student performance and have exceeded \$100,000 over the previous seven years.
